

# FULL-AUTOMATIC STARS UNITS

TARTARIC STABILIZATION | RELIABILITY & UNRIVALED RESPONSIVENESS

## 2 UPGRADABLE DESIGNS

DESIGN	STARS 60/120	STARS 180/240
DESIGN FLOWRATE (KL)	6k upgradable to 12k	18k extensible à 24k
ESTIMATED WEEKLY PROCESSED VOLUME (KL) <i>15 h/day, 5 days/week</i>	450 / 900	1 350 / 1 800
ESTIMATED YEARLY PROCESSED VOLUME (KL) <i>15 h/day, 210 days/year</i>	19 000 / 38 000	57 000 / 76 000
FOOTPRINT	11 m <sup>2</sup>	

## COMMON FEATURES

- **FLOWRATES** •

Stable in time & based on wine temperature & instability level

- **PRODUCTION CYCLE DURATION** •

Night & day, up to 20h/day – 1 CIP required for each 12h production cycle

- **MANPOWER** •

Tank management system: up to 3 subsequent batches  
Start-up, production & CIP fully automatic

- **MEMBRANE RENEWAL** •

Membrane lifetime depends on wine types & instability level

- **OPEX** •

around 0,01€/1L = utilities (water, electricity, chemicals) + membrane renewal

**FULL-AUTOMATIC STARS UNITS**  
TARTARIC STABILIZATION | RELIABILITY & UNRIVALED  
RESPONSIVENESS

**STARS 60/120**

**STARS 180/240**
