Applications

AgroFood Industry

Dairy Industry

- Valorization of whey
- Proteins fractionation
- Milk standardization

Wine & Juices Industry

- Tartaric stabilization of wines and juices
- pH adjustment of wines and juices
- Alcohol removal of wines

Sugars & Sweeteners Industry

- Liquid sugar production
- Demineralization, clarification & decolorization of syrups
- Purification of specialty sugars and polyols
- Production of glucose & fructose and oligosaccharides

Applications

Industries of Transition

Green Chemistry & Biotech

- Demineralization & separation of amino acids
- Purification & deacidification of organic streams
- Production of organic acids

Chemistry of Transition

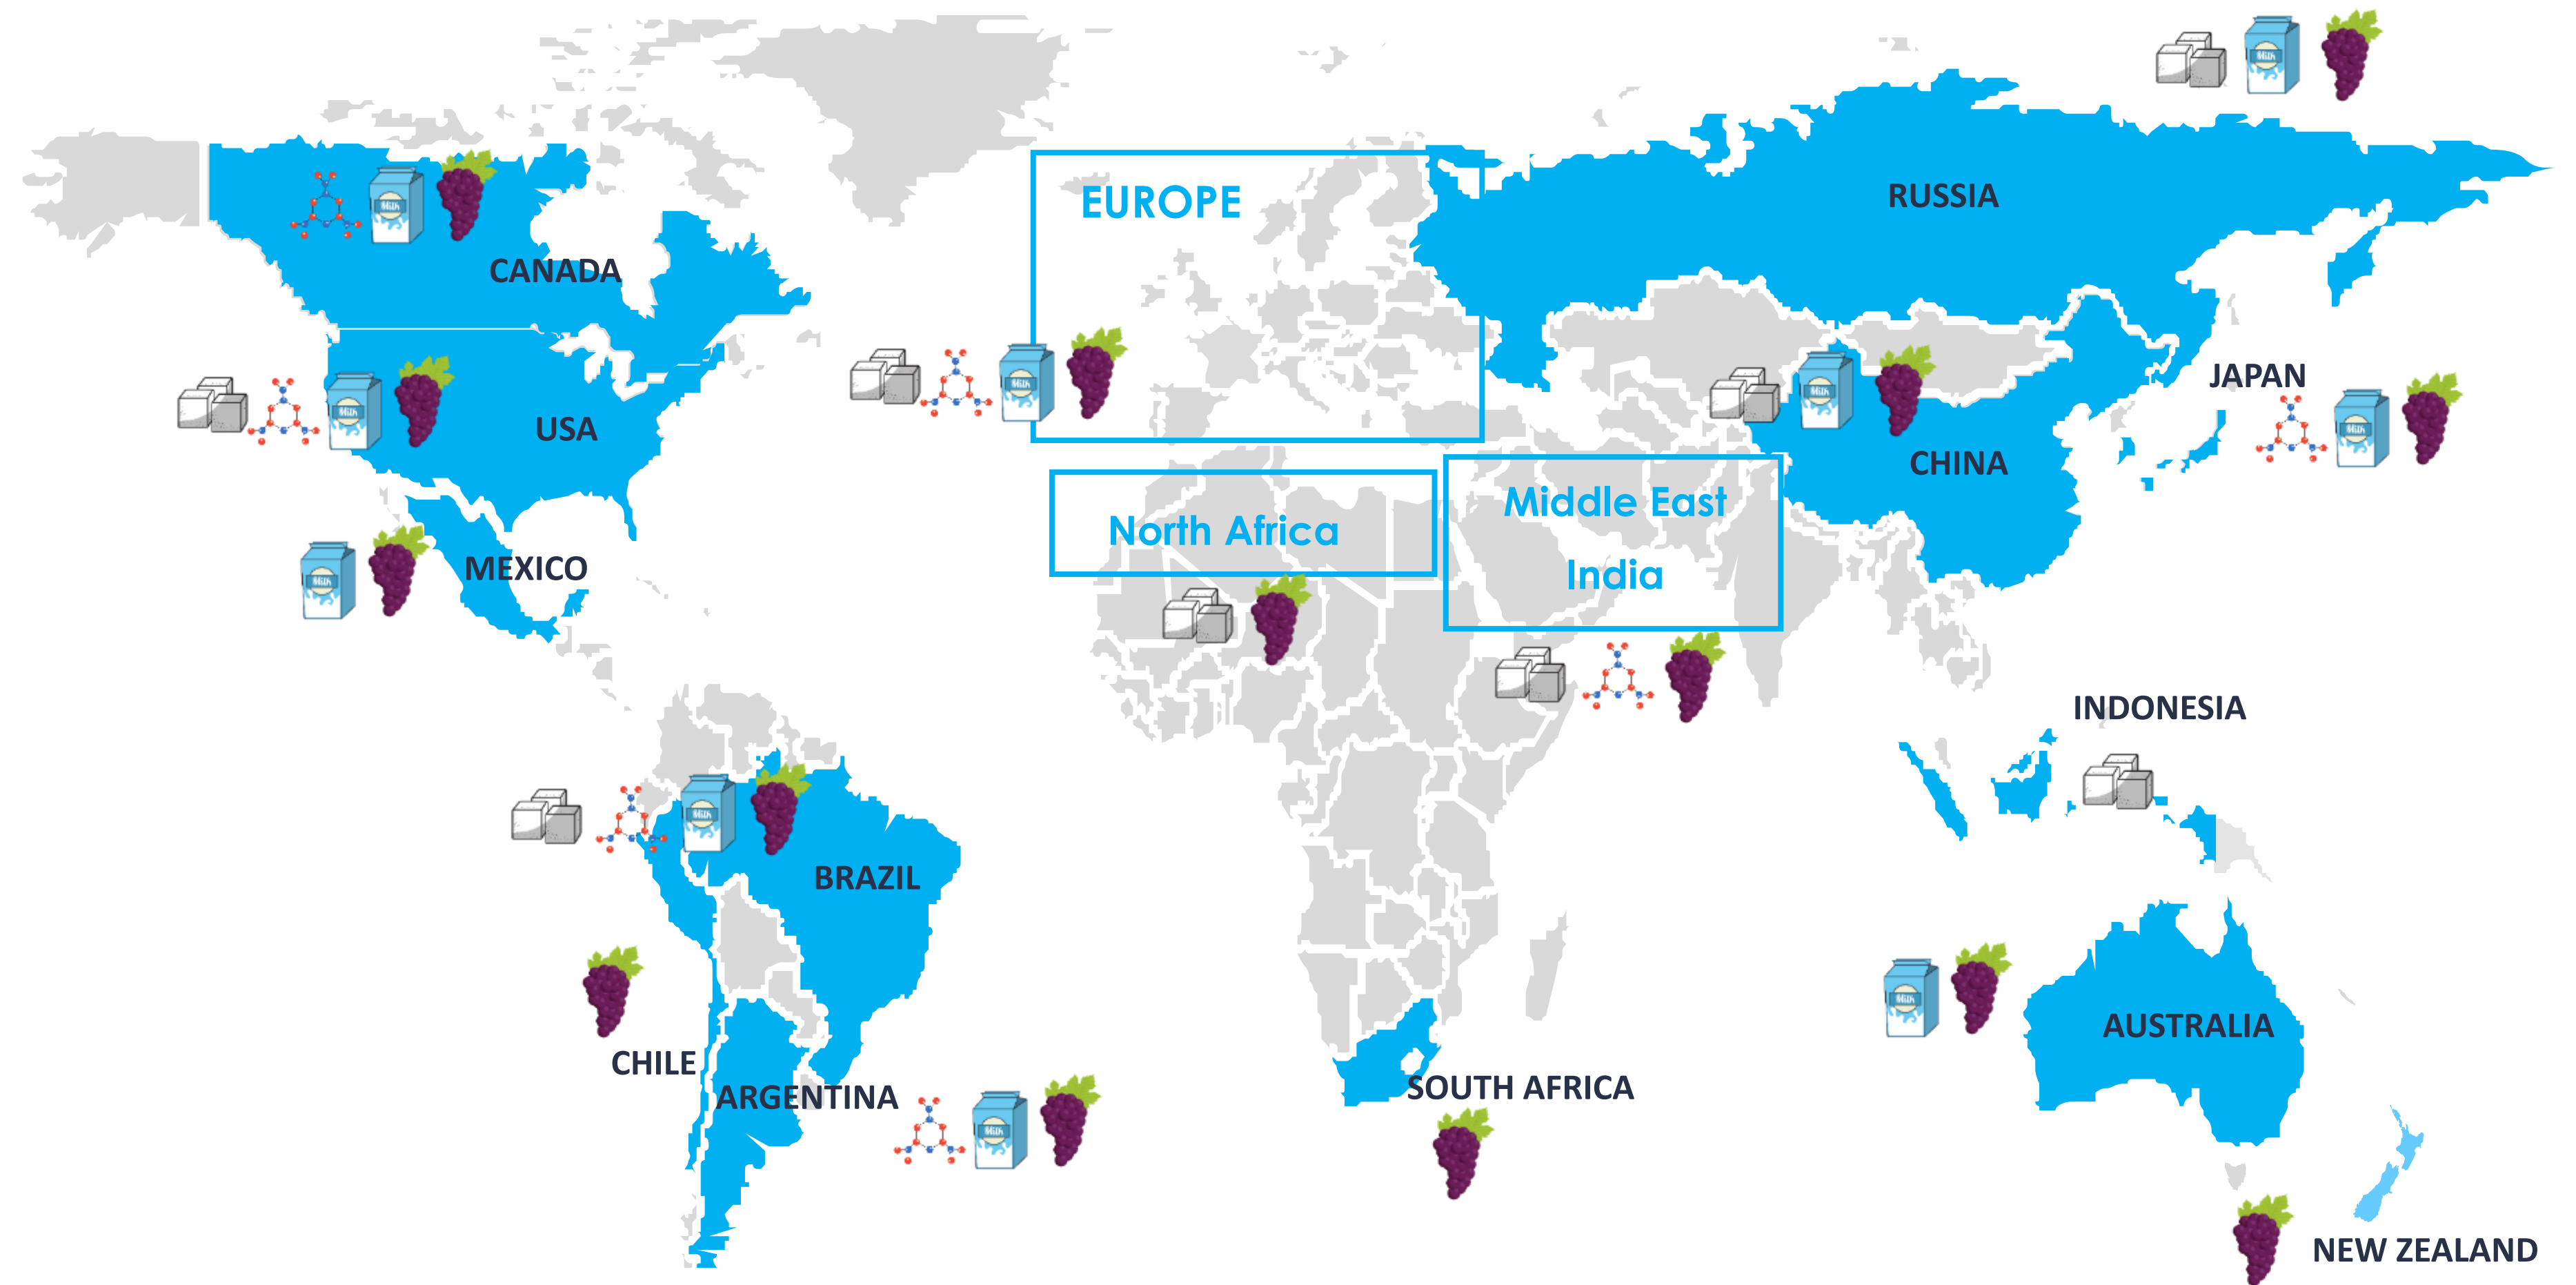

- Lithium production
- Purification of solvent
- Production of acid & base from salts

Water Reuse

- Desalination
